

GT 160

In honor of our 55th year, we're celebrating with a sweet 16. Introducing the GT 160. With a nod towards our rich design heritage, these runabouts feature the same sleek lines that made Glastron synonymous with style. As part of the series, we've also created four collector's editions featuring custom interiors, three-dimensional gauges, racing seats and much more. And although these models may look retro, they're anything but old fashioned. From the SSV® Hull design to the very latest engine technologies, these boats were built to not just reflect history, but make it.
